Contents of Volume 290

Vol. 290, Nos. 1–2 **May 10, 2004**

Research Papers

Identification of likelihood and prior dependence structures for hydrologic uncertainty processor
C. J. Maranzano and R. Krzysztofowicz 1
Three-dimensional physical benchmark experiments to test variable-density flow models
S. E. Oswald and W. Kinzelbach 22
Relation between climate variability and groundwater levels in the upper carbonate aquifer, southern Manitoba, Canada
Z. Chen, S. E. Grasby and K. G. Osadetz 43
Two-dimensional simulation of water flow and solute transport below furrows: model calibration and validation
F. Abbasi, J. Feyen and M. Th. van Genuchten 63
Multi-objective optimization of pumping rates and well placement in coastal aquifers
C.-H. Park and M. M. Aral 80
Calibration of an in-river phosphorus model: prior evaluation of data needs and model uncertainty
N. R. McIntyre and H. S. Wheater 100
Reservoir-induced hydrological changes in the Ebro River basin (NE Spain)
R. J. Batalla, C. M. Gómez and G. M. Kondolf 117
Magnitude-frequency of bed load transport in mountain streams in Colorado
M. Torizzo and J. Pitlick 137
A single well pumping and recovery test to measure in situ acrotelm transmissivity in raised bogs
S. van der Schaaf 152

Vol. 290, Nos. 3–4 **May 25, 2004**

Systematic correction of precipitation gauge observations using analyzed meteorological variables
D. B. Michelson 161
Forecasting the spatial extent of the annual flood in the Okavango delta, Botswana
T. Gumbricht, P. Wolski, P. Frost and T. S. McCarthy 178
Measurement of fluid contents and wetting front profiles by real-time neutron radiography
M. R. Deinert, J.-Y. Parlange, T. Steenhuis, J. Throop, K. Ünlü and K. B. Cady 192
Worth of head data in well-capture zone design: deterministic and stochastic analysis
M. I. Bakr and A. P. Butler 202
Spatial variation of effective porosity and its implications for discharge in an upland headwater catchment in Scotland
L. K. Deeks, A. G. Bengough, D. Low, M. F. Billett, X. Zhang, J. W. Crawford, J. M. Chessell and I. M. Young 217
Nitrate and herbicide loading in two groundwater basins of Illinois' sinkhole plain
S. V. Panno and W. R. Kelly 229
A groundwater-based, objective-heuristic parameter optimisation method for a precipitation-runoff model and its application to a semi-arid basin
K. Mazi, A. D. Koussis, P. J. Restrepo and D. Koutsoyiannis 243
Steady, annual, and monthly recharge implied by deep unconfined aquifer flow
D. W. Ostendorf, P. L. S. Rees, S. P. Kelley and A. J. Lutenegger 259
Recurrent shoaling and channel dredging, Middle and Upper Mississippi River, USA
N. Pinter, K. Miller, J. H. Wlosinski and R. R. van der Ploeg 275
Comparison of static-feedforward and dynamic-feedback neural networks for rainfall–runoff modeling
Y.-M. Chiang, L.-C. Chang and F.-J. Chang 297
Contamination of groundwater under cultivated fields in an arid environment, central Arava Valley, Israel
O. Oren, Y. Yechieli, J. K. Böhlke and A. Dody 312

doi: 10.1016/S0022-1694(04)00149-0
